

"Shrink & Stretch specialists"

The **Heatshrink** gas gun is an efficient process to shrink wrap pallets and unusual shaped products for transportation.

System includes:

- Heatshrink Gas Gun
- 6 mtr lead
- Regulator

3 easy steps:

- Fold film around product or pallet
- Envelope excess film and apply heat to seal
- Apply heat evenly around product to achieve a secure wrap

Applications include:

- Pallets
- Boats
- Air conditioning systems
- Industry parts
- Transportation
- The list goes on!!!
